& DREAM DISCOVER

D.A.D Sportswear.

With dreams and goals your life becomes so much more meaningful and exciting, whether it concerns the small everyday things or the big important decisions in your business or in your private life. It puts curiosity and energy in motion and that can take you on a journey of discovery you could never imagine.

The D.A.D collection is not only intended for qualified sailors. We create and design functional quality clothing with a maritime flavour that reinforces the profile of ambitious companies. We believe in a professional approach and personal meetings. Our goal is to be the best partner with the best brand when you've made the decision to raise your own brand to new levels and start the journey.

D.A.D. Basic!

Have you discovered our major initiative - D.A.D Basic. With this line we're pushing down the prices to a minimum! Besides being able to offer you low prices, quality and design have been important ingredients when we designed this collection.

D.A.D Basic has a comfortable and flexible fit, is available in a range of beautiful colors and all garments are designed with YKK zipper.

How can we be able to offer you such attractive prices? The secret behind D.A.D Basic is the large purchase volumes.

D.A.D Basic can be found at the front of the catalogue, so start browsing and get inspired!

D.A.D - "Dream & Discover."

Welcome!

CORPORATE SOCIAL RESPONSIBILITY

ACCORD ON FIRE AND BUILDING SAFETY IN BANGLADESH

The Accord is a legal agreement to improve fire- and building safety for the textile industry in Bangladesh. More than 2 million workers are affected with the Accord improvements, which makes it one of our most important initiatives for social responsibility.

BSCI (BUSINESS SOCIAL COMPLIANCE INITIATIVE)

BSCI is an initiative for companies that are committed to improve working conditions in the global supply chain. The BSCI Code of Conduct contains requirements on minimum wage, working hours, prohibition of child labour and several other important criteria.

TEXTILE EXCHANGE

Textile Exchange is an international non-profit organization working for the responsible expansion of organic cotton production. While the demand for organic cotton is increasing, the available production is not sufficient.

HAND IN HAND

Hand-in-Hand fights poverty with entrepreneurship. In approximately 7 years - 1,7 million jobs have been created in some of the world's poorest countries. As a result, 5 million people are no longer living in extreme poverty and hundreds of thousands of children has been able to attend school. New Wave supports Hand-in-Hand with funds to enable three villages to participate in the project.

CLEAN SHIPPING INDEX

The Clean Shipping Index aims to impact the shipping companies to use cleaner vessels and reduce emissions of greenhouse gases and chemical contamination of our seas.

WASHING INSTRUCTIONS

You can do quite a lot to maintain the look and life of your clothes. Washing your clothes according to the washing instructions will keep them looking good for much longer. Always wash dark garments separately and use a non-bleaching washing agent to protect both the garment and environment. The garments in our collection have many uses and include everything from T-shirts to jackets in a variety of materials. This means that they must be cared for individually in order to maintain their colour and application. All our garments come with clear washing and care instructions.

IRONING
The symbol of an iron indicates that the garment can be ironed or mangled. The number of dots in the iron is the temperature recommended for the garment. Do not iron directly onto a printed garment or on its reverse.

WASHING IN WATER
The symbol of a tub indicates that the garment is machine washable or can be washed by hand. The tub will either show the recommended washing temperature or a hand symbol for hand wash. All our garments can be spindried. A crossed over tub symbol means that the garment cannot be washed in water.

CHLORINE BLEACHING
Triangle – the garment can be chlorine bleached. The letters in the triangle shows the chemical term for chlorine. A crossed over triangle means that the garment cannot be chlorine bleached.

DRY-CLEANING
Circle – the garment can be dry-cleaned. The letter inside the circle refers to the recommended washing solution. A crossed over circle means that the garment cannot be dry-cleaned.

DRYING
Circle – the garment can be dry-cleaned. The letter inside the circle refers to the recommended washing solution. A crossed over circle means that the garment cannot be dry-cleaned.

The pictures in the catalogue and the actual products may differ slightly in colour due to the methods of photography and printing used. The scenic pictures may also differ somewhat from the pictures of the products as a result of varying light conditions, in which case we recommend that you refer to the product pictures.

The prices in the catalogue are valid from 01/02/2017 until 31/08/2017, but the prices are subject to unilateral throughout the year (rising cotton prices, USD/EUR, etc.)

Prices are subject to printing errors.

All prices are VAT excluded.

BREATHABLE

This is a material that both breathes and releases moisture. A soft and flexible material that can be washed many times without losing its shape and function.

32 DEGREES

Garment made of PCM, Phase Change Material. Due to the unique microcapsules in the fabric construction a 32 C temperature can be obtained inside the garment no matter the outside temperature.

SOFTSHELL

Softshell is a modern material that provides optimal freedom of movement. The material is wind- and waterproof with good breathability. Softshell is a soft and stretchable 3-layer laminate, a material that dries very rapidly.

WIND- / WATERPROOF ZIPPER

3M THINSULATE

3M™ Thinsulate™ insulation helps to keep you warm when it's cold outside. The microfibers that make up Thinsulate insulation work by trapping air molecules between you and the outside. The more air a material traps in a given space, the better it insulates you from the cold outside air. Because the fibers in Thinsulate insulation are finer than the fibers used in most other synthetic or natural insulation, they trap more air in less space, which makes Thinsulate insulation a better insulator.

WIND- / WATERPROOF TAPED SEAM

UV +30 PROTECTION

PRINTING TECHNIQUE

Require a special printing technique

COOLDRY / COOLTOUCH

This is a material that both breathes and releases moisture. Cooldry also stands out because of its quick-drying nature, ensuring a feeling of freshness even during physical exertion.

WIND- / WATER REPELLENT & BREATHABLE

By applying this method, a windproof with a water repellent surface is obtained. This can be done chemically or through weaving technologies in the material.

OEKO-TEX

Textiles bearing the OEKO-TEX® label meet high human ecological requirements and are free from harmful substances. www.oeko-tex.com

WIND- / WATERPROOF & BREATHABLE

These three functions are found in most outer garments, which have a special coating or membran on the inside of the outermost layer that stops water and wind while allowing the material to breath.

DEMAND THE BEST FROM YOUR CORPORATE WEAR

Soft shell, zip guard, articulated sleeves and taped seams. With the right equipment working together is easy come storm or calm, rain or shine.

DAD is a Swedish brand of functional corporate wear for leading edge companies, inspired by the life at sea. Lavish quality garments that always show you at your best angle. No matter how, where or when you choose to be seen...

Lying in the sun on the fore deck. Behind the helm with the water swirling.
Or having a warming cup of tea at a meeting right inside the cabin.

DAD makes clothes to be seen in for all imaginable occasions!
